First-year Electronics Engineering student with a strong interest in software development and programming, eager to leverage academic knowledge in a practical setting. Proficient in C, Java, and web development, with a commitment to continuous learning and skill enhancement. Seeking an internship opportunity to contribute to innovative projects while gaining hands-on experience in the tech industry. Passionate about solving complex problems and collaborating with teams to drive successful outcomes.

Skills

- C and Java programming
- Front-end design: HTML, CSS
- Skilled in using development tools
- Analytical problem solving

Experience

Mar 2024 -
Feb 2025

Teacher's Assistant

Brain Gym, Giridih, India

- Improved student comprehension by implementing innovative teaching methods and incorporating visual aids in lessons.
- Collaborated with colleagues to share best practices, resulting in consistent teaching approaches across multiple classrooms.
- Enhanced students' critical thinking skills through problem-solving activities and group collaboration exercises.
- Promoted a positive learning environment by establishing clear expectations and maintaining open lines of communication with students and parents.
- Supported the lead teacher in developing curriculum materials, ensuring alignment with state standards and educational objectives.
- Worked with teacher to optimize learning plans based on student test grades and evaluations.
